Met Office Aberdeen Meteorologist's View
Brisk northerly winds easing early in the day with a severe chill effect. Any showers will fall as snow at all levels.

Forecast for Saturday 11 Mar 2023
Weather: Wintry showers are possible overnight otherwise clear spells and a cold night with significant wind chill in the fresh southeasterly winds. Turning cloudier during the morning as a frontal system moves east across the country with snow showers developing during the afternoon. Heavy snow is a possibility later on Saturday with strong winds.

Maximum wind: East or southeast 10-15mph, increasing 15-25mph later.

Chance of cloud-free hill tops above 800m: 90% in the morning, falling to 60% later as snow showers approach.

Low Cloud and visibility: Patches of low cloud above 700m early in the day but summits mostly clear for most of the morning. Cloud becoming more scattered later in the day as outbreaks of snow develop. Visibility will be very good but fall moderate or poor later in snow showers.

Temperature: **Glens:** Minus 5 rising to plus 4 Celsius.
At 800m: Minus 8 Celsius rising to minus 46 Celsius.
Freezing level: Surface rising to 200m
